- Competitive Intensity
- Faster Technology Innovation
- Globalization
- Lean Manufacturing & Six Sigma
- Need for Faster, Accurate, & Reliable Information
- Collision of IT & Engineering
- Regulatory Compliance

The only common denominator is that change is constant. And the more things change, the more they stay the same.

Next Big Opportunity

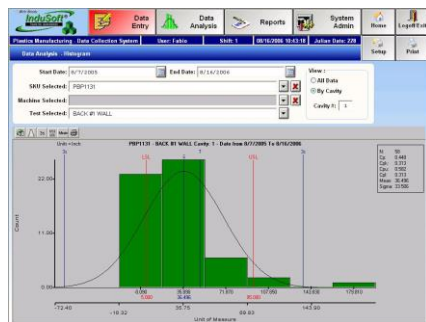

The Next Big Opportunity: Information Management and Understanding that Information to help increase your competitive advantage.

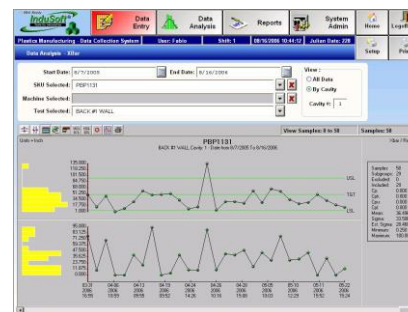

Building Blocks to Next Step

- OPC provides multi-vendor plug-and-play components that provides easy integration into production, enterprise-wide automation and business systems.
- SCADA systems can monitor and controls the complete production line. It can transform production data into actionable date for decision making.
- Networks is the infrastructure to integrates everything together.

The InduSoft Product

- InduSoft Web Studio is a Rapid Application Configuration Environment
- Eliminates unnecessary and repetitive development
- Streamlines application development
- Optimized for embedded and mobile developers allowing them to focus on their core competencies and differentiate their product through the application.

Product Concept – What Do We Offer?

We offer **solutions** to configure, manage, and monitor the flow of valuable information among the plant-floor, the users (local or remote visualization) and the Enterprise.

InduSoft bridges the gap between Plant-floor and Enterprise

Standards

.NET
TCP/IP
OPC
ActiveX
ADO/ODBC
MFC
COM/DCOM
OLE
XML
SOAP

Functionality

Graphics
Alarming
Event Mgmt.
Trending
Recipe
Scheduler
Logging
Script Language
Reports
Database

User-Friendly

Tree View
Online Configuration
Security
Import Wizards
Library
Remote Mgmt.
MDS
Debug

Connectivity

Plant-Floor Devices
3rd Party SCADA
PC Control
MES
ERP
WEB
API Toolkit

Reliability & Interoperability

Mobile Access

Email, data, and page interface
from cell phones, PDAs, etc.

Web Solution

Access to the system from
anywhere using a single browser

Open Architecture

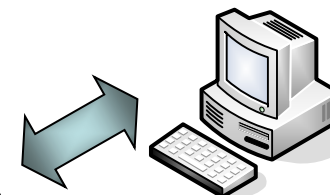

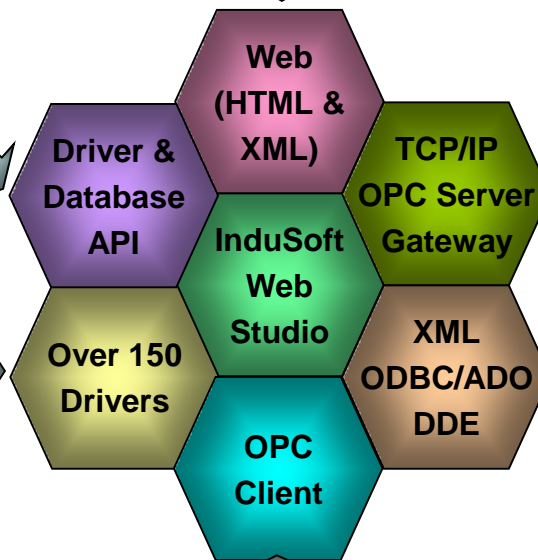

System Integration

Product Customization

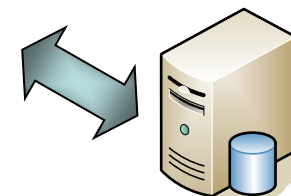

PLC

DCS

Client Stations

Redundancy
Data Exchange in Real-Time
Third-Party Systems

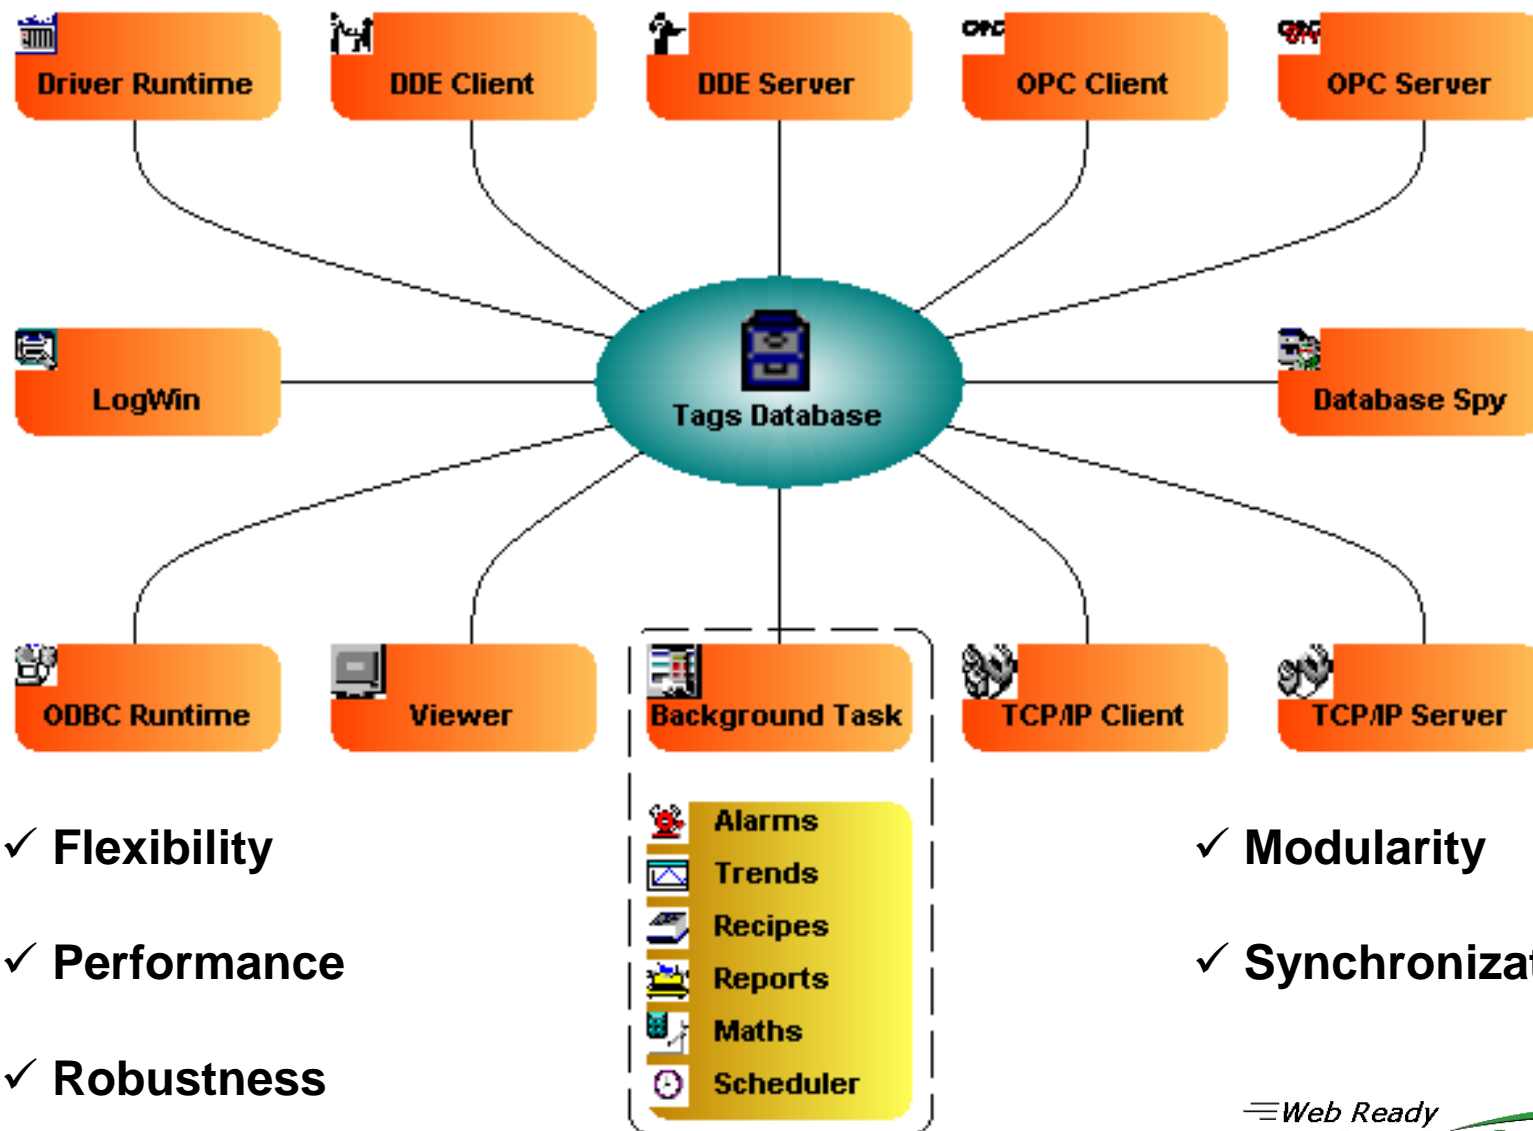

Enterprise

Access , Oracle ,
SQL Server, Fox Pro,
PI and many others...

Web Ready

InduSoft
Tools for Automation

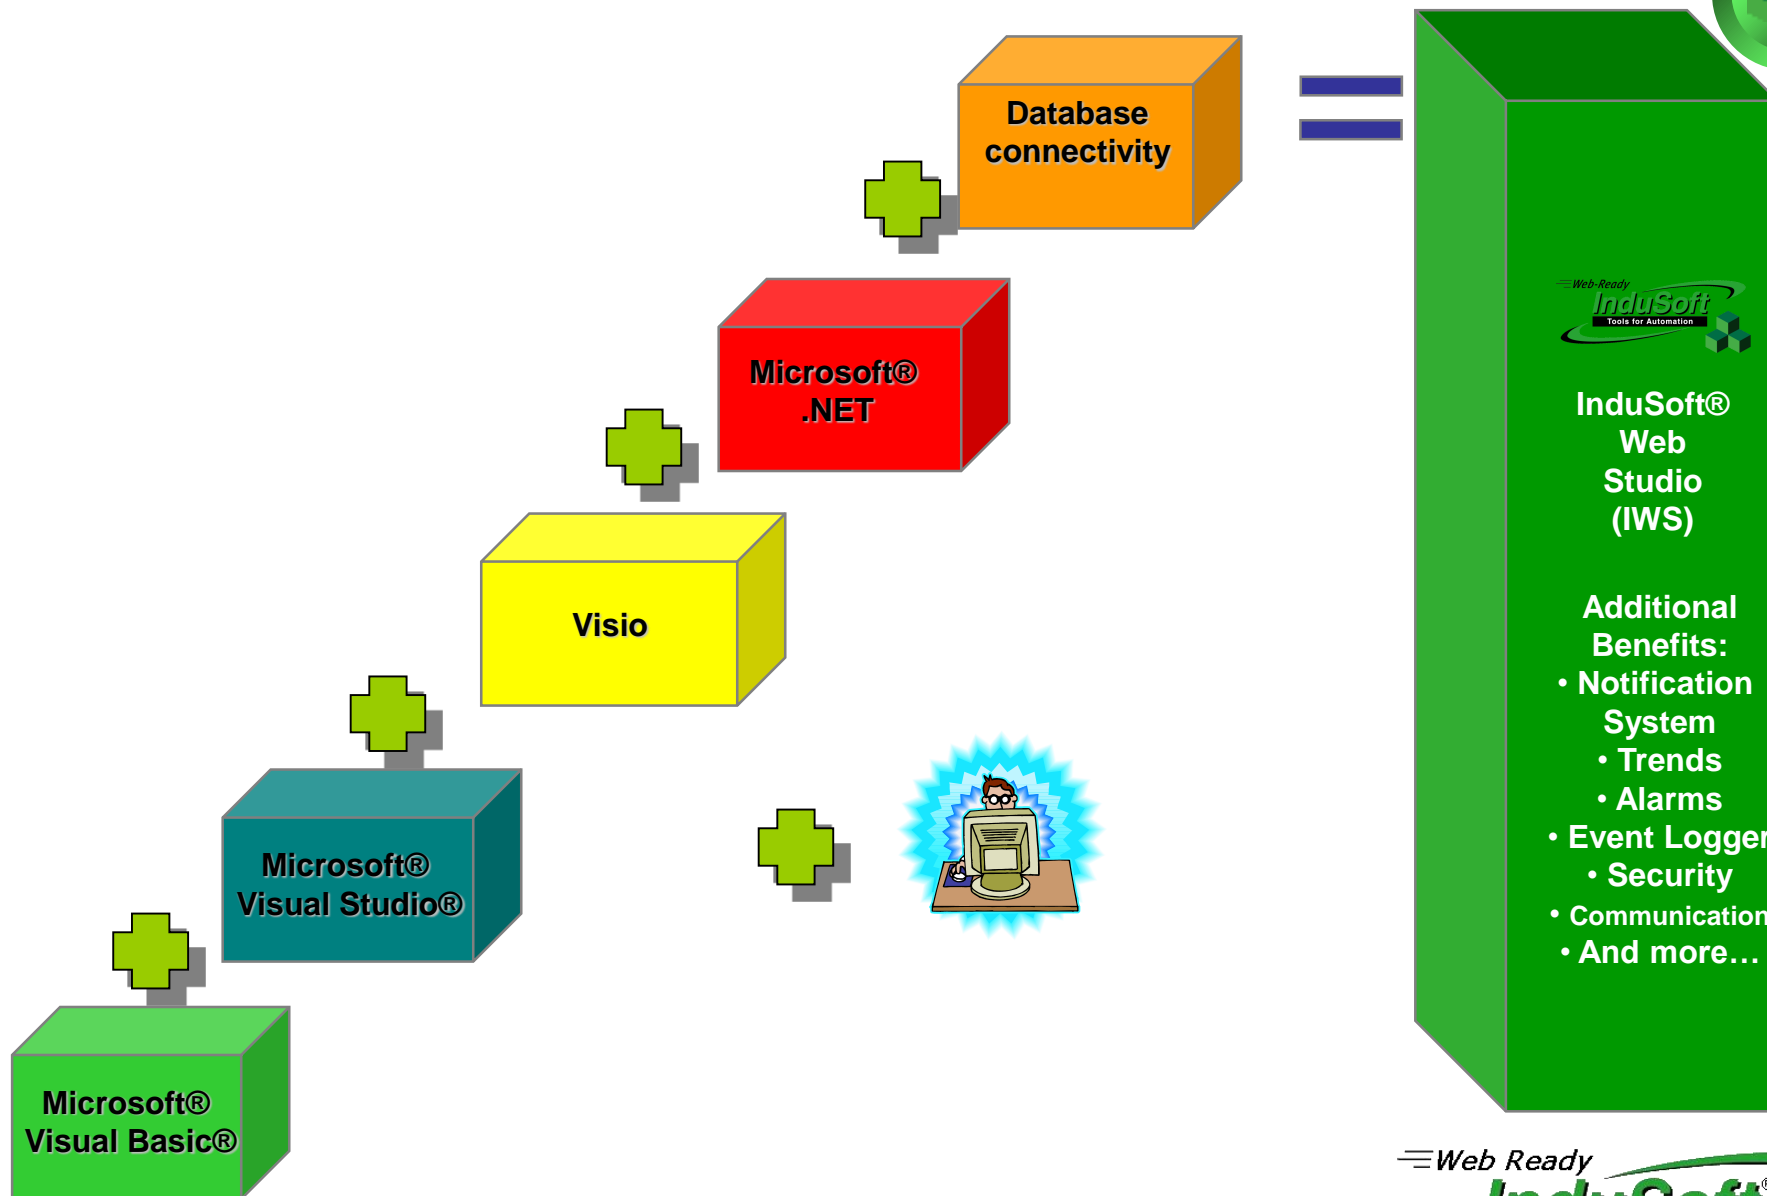

- ✓ Flexibility
- ✓ Performance
- ✓ Robustness

- ✓ Modularity
- ✓ Synchronization

The Product

CEView

A feature-rich Human-Machine Interface (HMI) designed for OEM applications using the Microsoft Windows CE operating system

- Unified development environment (InduSoft Web Studio).
- Support for all processor types available in the market (WinCE v3.0 and higher).
- Web Server and/or Web Thin Client support.
- Local/Remote SQL Relational Database interface (Studio ADO Gateway).
- Support for all main features available on the SCADA level (Graphic interface, Alarm online/history, Trend online/history, Script, Scheduler, Recipe, Report, OPC, TCP/IP, Communication Drivers and so forth).
- Wide spectrum of applications, such as Consumer Devices, Retail Terminals, Test and Measurement, Healthcare devices, Transportation, Data Communication, Manufacturing, store housing and distribution.

Industrial HMIs

Tablet PCs

Blind Devices

PDAs and Cell Phones

Web Ready

InduSoft®
Tools for Automation

Hardware & Software Modularity, Scalability

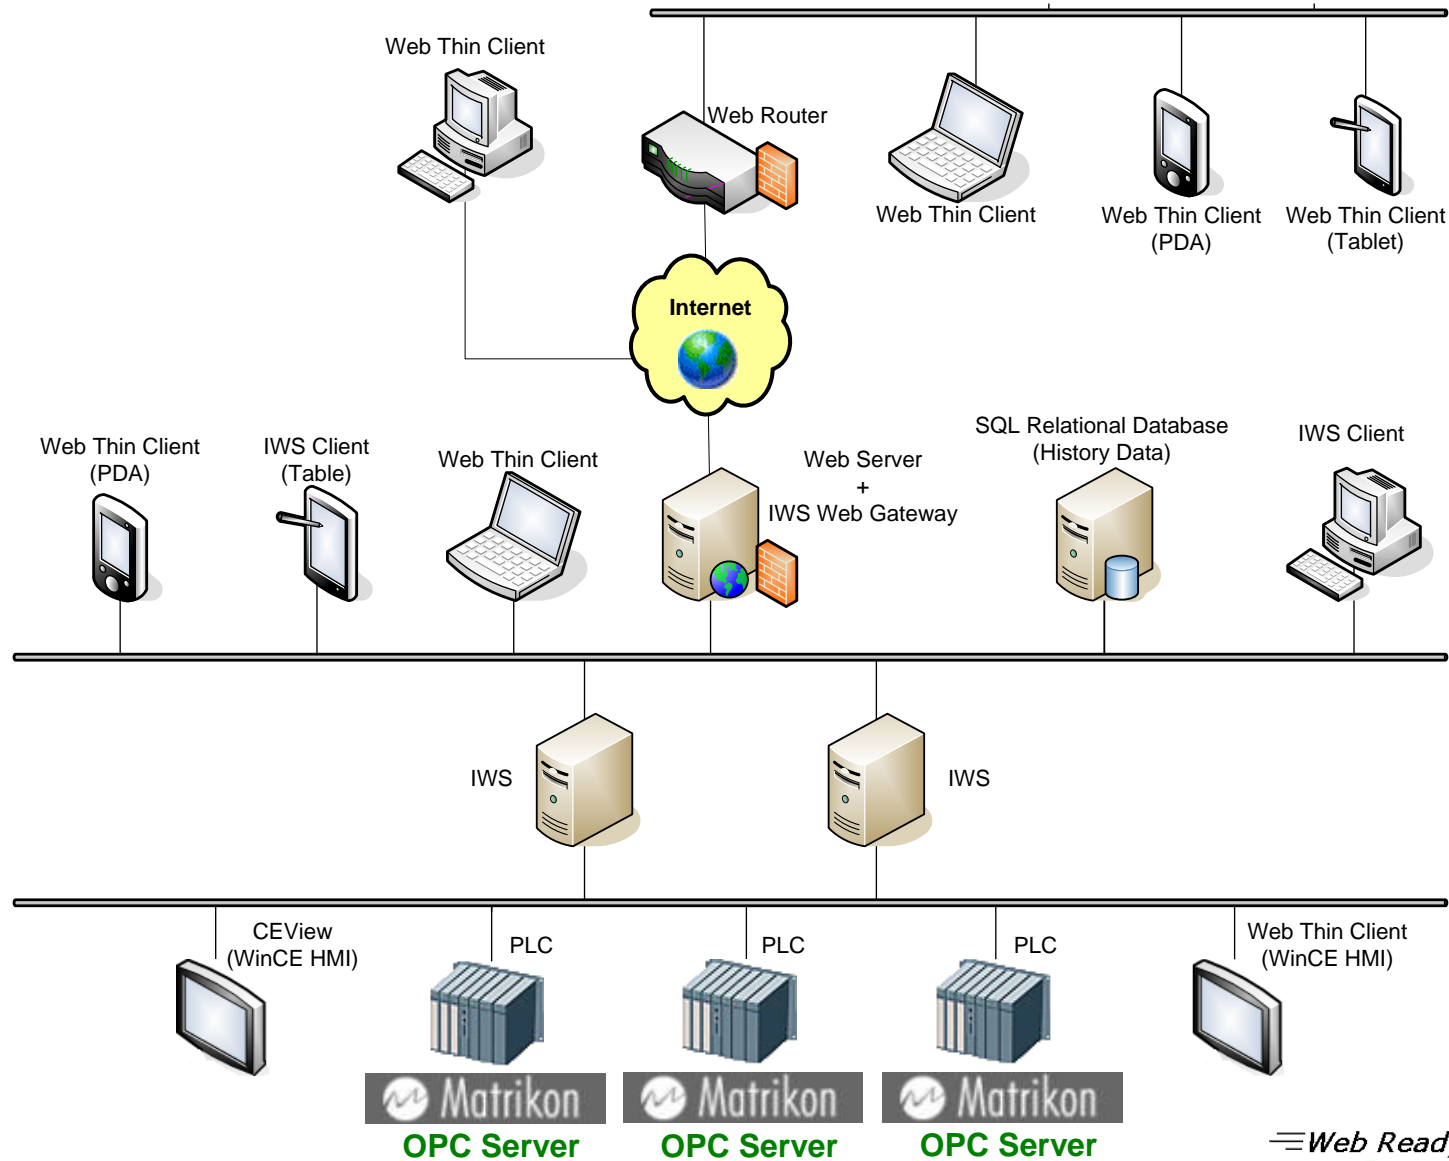

Build your application just
once and run it under any
platform from Windows CE up
to Windows Server 2003.

Platform-Independent Application

Hardware & Software
Modularity, Scalability

Multi-platform Vertical and Horizontal Integration

Thank you!

THANK YOU!
